Self Discipline
Attention to detail
Friendliness

Profile

An aspiring, passionate and highly motivated self-taught Front-End web developer with almost year and a half of learning experience, chasing his dream to land a first job or internship, learn more and become a professional.

Projects

345Movies(React/Material UI)

Fully responsive movies and series application coded in React and Material Ui, that relies on Axios to pull the data from the MovieDB API, and display it based on users selection.

- 345Movies

Portfolio Website (React/Styled Components)

Responsive personal portfolio website that displays everything i have done since May 2020 , as well as all the information about me.

- Vladimir Ćinić Portfolio Website (vcportfolio.netlify.app)

E-Commerce Web Application (React/Styled Components)

Responsive 'Guitar Store' Web application with cart functionality that resembles some of the familiar websites and simulates connection to the database.

- Guitar Store (guitar-store-website.netlify.app)

Casino Calculator -v2 (React/Styled Components)

Redesign of the previous version coded in React with a lot cleaner logic. It uses a single object and Context API to render elements of the application and calculate the outcomes based on the users input.

- Casino Calculator V2 (casino-calculator-v2.netlify.app)

Star Wars Quiz (JavaScript, Sass)

A responsive interactive quiz app where user has to guess the name of the character from the popular franchise in order to progress.

- Star Wars Quiz (star-wars-quiz.netlify.app)

Lightsaber-app (JavaScript, Sass)

Responsive interactive application designed in plain JavaScript that manipulates CSS variables and DOM elements to output the visual and audio elements of the app based on users selection.

- Lightsaber App (lightsaber-app.netlify.app)

Casino Calculator - v1 (JavaScript, Sass)

Tool app I designed and developed for my job at the casino that was used multiple times per day and made manual counting of large quantities of money faster.

- Casino Calculator (casino-calculator-v1.netlify.app)

Learning Resources

- The Complete JavaScript Course 2021 : From Zero to Expert - Jonas Schmedtmann
